

SALE #89

CLOSING DATE
AUGUST 12, 1997

PONTERIO & ASSOCIATES, INC.

TERMS OF SALE

1. This is a mail bid sale, conducted by PONTERIO & ASSOCIATES, INC. Subject to our consent, liberty for bidding by sellers and/or consignors is hereby reserved.
2. A 10% buyers charge will be added to the price of each lot. This charge will be added to all invoices.
3. Terms of this sale are strictly cash with payment due immediately upon receipt of invoice. Payment by check must be payable in U.S. currency only and drawn on a U.S. Bank. NO credit card purchases will be accepted. Title to all lots remains with consignor until paid in full.
4. Minors are expressly forbidden to bid in this sale.
5. Bidders not known to us must furnish satisfactory credit references, sufficiently in advance of the sale to allow for checking, or a deposit equal to 25% of the bids submitted. Deposits submitted will be applied to purchases and any unused portion of such deposit will be promptly refunded.
6. All bids must be per lot as numbered in this catalogue. No lots will be broken.
7. We reserve the right to withdraw any lot prior to the sale.
8. All items in this catalogue are guaranteed to be genuine unless specifically stated otherwise in the lot description. Claims to the contrary must be made in writing within three days after receipt of the lot. Any returned lot must be intact and in its original unopened holder. No lot may be returned without prior written consent. In no event may any lot be returned after thirty (30) days from the date of sale. LATE REMITTANCE FOR PURCHASES CONSTITUTES JUST CAUSE TO ABROGATE ALL RETURN PRIVILEGES FOR ANY REASON.
9. Lots that have been examined prior to the sale may not be returned for any reason other than authenticity.
10. Grading is a subjective description in the opinion of the cataloguer, as to the state of preservation of a particular coin or lot. The term "Proof" or "Specimen" is used to describe a method of manufacture, and not a grade or condition. Such terms are the opinion of the cataloguer and shall be deemed to be part of the description and not an attribution. No warranty, whether expressed or implied, is made with respect to such adjectival descriptions, which can and do vary among experts.
11. Please note: Auction sales are not approval sales. You must assume the responsibility for paying for all material that is awarded to you.
12. Bids for all lots must be submitted in even dollar amounts, or they will be reduced to the next even dollar amount. Successful bidders will be awarded the lot at a nominal advance over the second highest bid. When identical bids are received, for a lot, preference is given to the first bid received. We reserve the right to refuse any bid, that we believe has not been made in good faith.
13. We can not be responsible for errors in bidding. Please make certain that you bid on the correct lot and that your bid is the maximum that you are willing to pay.
14. An estimate is provided for each lot. This estimate represents, in the opinion of the cataloguer, the current market value of the lot. Lots may, of course, sell for above or below this estimate.
15. All photographs in this catalogue are of the actual items being sold.
16. Postage, insurance and sales tax, if required by law to be collected, will be added to the invoice for any lot(s) invoiced to successful bidders. All lots delivered in the state of California are subject to applicable sales tax. Individuals purchasing lots for resale must submit an exemption certificate, signed by the purchaser or his agent and recognized by the state of California, with their current resale certificate number or be subject to the sales tax.
17. We reserve the right to require payment in full before delivering any lot to a successful bidder. It is the buyer's responsibility and obligation to have the lots fully insured while in his/her possession. Risk of loss is on the buyer. All lots sent to foreign countries, including Canada and Mexico, will be billed at an additional 1/2 of 1% for insurance. The minimum insurance fee is \$5.00. Please send shipping instructions. Normally all lots will be sent via registered mail.
18. In the event a bidder fails to make remittance promptly, we reserve the right to resell the merchandise and bidder agrees to pay for the reasonable cost of such a sale and also to pay any difference between the resale price and the previously successful bid.
19. If the invoice for this sale is not paid for in full, when due, the unpaid balance will bear interest at the highest rate permitted by law until it is paid in full. If the matter is referred to an attorney for collection, bidder agrees to pay all attorney fees, court costs and other costs incurred by Ponterio & Associates, Inc. The courts of San Diego County, California shall have exclusive jurisdiction and venue over any suit initiated by Ponterio & Associates, Inc. to collect past due invoices and the service of process by certified/registered mail, return receipt requested, shall be sufficient to confer "in personam" jurisdiction over bidder.
20. We reserve the right to postpone this sale for a reasonable period of time, as the result of any act of war, natural calamity or significant relevant event, which, in the judgment makes it inadvisable to hold the sale as scheduled.
21. Our ultimate liability for any item is the price paid.
22. By bidding in this sale, bidder personally guarantees payment; if a corporation is the bidder, the officers and/or principals of the corporation agree to personally guarantee payment.
23. All bid sheets submitted by mail bidders must be signed. Company bids must be submitted with the signature of a duly authorized agent of such company.
24. Bidding in this sale constitutes acceptance by the bidder of all the forementioned terms and conditions of sale.
25. Please remember that the mail is sometimes very slow. Please mail you bid sheet early to be sure we receive your bids prior to the close of the sale.
26. We offer the service of limiting the total purchase of bidders. This service is available only to those bidders who wish to limit purchases to \$500. or more. To limit purchases, simply fill in the proper areas on the mail bid sheet. Bids may then be submitted for amounts up to three times the amount of your limit total figure. You may also enter your bids in an order of your preference. We will attempt to buy for you up to your limit in the order you designate. You may also select to bid on two similar lots with instructions to buy only one of them. For instance, if lot 102 and 103 were similar and you wanted only one of them, bid on both with instruction to buy only one. We will then attempt to but for you one of the two for the lowest price.

INSTRUCTIONS TO NEW MAIL BIDDERS

Bidding by mail permits you to participate in an auction as though you were attending it in person. The procedure is really quite simple. You tell us what you want, and the maximum amount you are willing to pay. We then, as your personal agent, try to buy the items listed for you at the lowest possible price.

The enclosed mail bid form has two sides for you to fill in. The front side provides all the information we will need to register you as a bidder, execute your bids for you and deliver your lots to you if you are a successful bidder. Please answer all the questions that may apply to you. **DON'T FORGET TO SIGN YOUR BID SHEET.**

On the back side are pairs of columns where you may list your bids. After carefully reading the lot description, write down the lot number and the maximum amount you are willing to pay for that lot. Don't forget that a 10% buyer's fee will be added to your actual purchase price if you are the lucky bidder. Continue to list lot numbers and bids for each of the lots you are interested in buying.

LOT	BID
53	\$500
101	\$350
163	\$700
187	\$450
398	\$900

When we receive your bid sheet, we will record your bids at the amount you have authorized us to bid for you, and we will, in addition, note any lots where an increase is authorized if absolutely needed to win the lot. For example, if the sample bid sheet shown at the right were yours, we would enter your bid on lot #53 as \$500. If yours was the highest bid received, you would be the purchaser at \$500. (plus 10%) or perhaps even less. If the second highest bid received on the lot was substantially less, your bid would be reduced to a "normal" increment above that second-highest bid, just as it would be if you were present at the sale yourself to execute your own bids. If you have authorized a percentage increase on the front side of your bid sheet and the bidding by others has exceeded your basic bid, we will then, as your personal agent, increase your bid to the minimum amount necessary to obtain the lot for you. The authorized increase will never be used except when your basic bid is exceeded.

Before you mail your bid sheet, do be sure to check it over to make certain you have bid on the correct lot(s) and that your bids are the ones you are both willing and able to pay for. Enjoy the catalogue, place bids on everything you would like to buy. If time is running out and you feel your bid sheet may arrive too late to be included, you may call our office between the hours of 8:30 a.m. and 5:00 p.m. Monday through Friday, giving us the lot numbers and amount you will pay for each lot, over the telephone. Please make sure you immediately send in your bid sheet for confirmation. Also, you may FAX your bid sheet to us. As your personal agents we wish you every success.

VIEWING OF LOTS

Lots will be available for viewing by prospective bidders at our office each day, Monday through Friday, by APPOINTMENT ONLY, between the hours of 9:00 a.m. and 5:00 p.m. July 14, 1997 through August 12, 1997 only.

"HOW DO YOU MAKE UP AN AUCTION CATALOG LIKE THIS?"

We are frequently asked this and it is not easily answered. I will address this question in a non-technical and fairly basic manner, and hope it offers some insight in just what takes up so much of our time and energy.

We cannot conduct auctions without 3 major elements; people with material for sale, others interested in buying interesting material, and an organization capable of preparing a catalog such as this and to organize, advertise and conduct an auction. With this in mind, let's see the "nuts and bolts" of creating a catalog.

When a consignment is received, the materials receive an examination and are logged in by consignor. These are placed in secure storage until turned over to numismatic researcher for attribution and authentication work; when completed, all material is re-examined to evaluate the work of the researchers and to see which items will be single-item or multi-item lots. The materials to be auctioned and consignor paperwork then goes to the Editor who assigns a Consignor Code and Control Number to each lot and then enters the information for each lot into our computer. Let us say that we have received 15 items from John Smith (2 Brazil & 2 German gold coins plus 3 silver coins from Bolivia, 2 from Italy & 4 from Sweden, plus 2 banknotes from Iceland), and that his consignment is the first to be given Control Numbers for this sale. The coins and notes are tagged "SMT001" through "SMT015" and this is recorded in a control number ledger, and data about each lot is entered into our computer.

Within our Data Base we maintain a variety of files for different categories of coins, medals, etc.; for example, gold coins from Afghanistan through Czechoslovakia are assigned to file A, Danish West Indies through Great Britain to file B; other coins from Greece through Jamaica to file L; Mexican colonial gold to file 1 and non-gold colonials to file 2; etc. All in all, we utilize about 40 files to fit our sorting needs. With this in mind, the gold coins of Brazil we received from Mr. Smith are entered into file A, the German gold into file B, the Italian silver into file L, and so on. When this is completed, the materials are re-examined to determine which should be photographed and these are noted by subject area and Control Number and then stored in numeric order by control number; bulky items are stored securely in areas designated for larger items. As further consignor materials are similarly processed they are stored in control number order. When coins are noted for photographing, they are checked against the "to photo" lists, withdrawn from storage for photographing and quickly returned to their proper location. The photos themselves are placed in envelopes with appropriate control numbers on each, and are filed in control number sequence by file before and after trimming.

When all materials received for given sale have been processed, we proceed to the sorting into our catalog order. In this catalog, the first file is that of Mexican Paper Money (file Z), the next other World Paper Money (file Y). The Editor has these files printed, with each lot sorted in a programmed manner, each lot item

preceded by control numbers. The printouts are reviewed by researchers to ensure proper arrangement of materials; improperly sorted entries are noted for rearranging and the files are returned to the Editor who makes the corrections and re-prints the files. When reprinted, printouts go back to the researchers and consigned materials are then withdrawn from storage; items for each file are checked off against the printouts and moved into new storage units. When materials for one or more files have been pulled the contents of the file-ordered storage units and the appropriate printouts are returned to a researcher for further review of lots and their write-ups.

At this point, researchers examine each item and verify the references cited for each to ensure proper attribution. Occasionally an error is detected in the initial write-ups and, if the correction calls for a change in the order of a file or move to a different file, these corrections are noted on the printout(s) involved and the material physically moved to the correct location. If more than one of a particular item are listed, say a 1910 Peso of Mexico, the one with the better condition precedes the other; if there are Proof and Uncirculated examples of the same piece (i.e., Germany 1955 "von Schiller" 5 Mark) the Proof is listed first, and changes in the file order may be called for. When materials have been reviewed and corrections noted, printouts and the appropriate materials are forwarded for yet another review for final grading evaluations, comments about the material and estimates of value. Following this, the materials are returned to storage and the printouts handed to the Editor for computer entry. When each file is completed, the information is transferred from the data base into Wordperfect and a printout of the pertinent file is made with lot numbers; if this is a Mail Bid Auction, the Editor places a "P" by the number of each lot which is photographed. This document and the printout are compared to ensure accuracy in the entry of the latest information and proper placement of the text. Needed corrections are noted and the appropriate pages returned to the Editor for corrections and for the transfer of information onto computer disks for the printer.

The Editor and Quality Assurance people are also responsible for placement of the photographs of lots. When they arrange the layout of the pages of photos, these are compared with the text to ensure the lot number and illustrated item are as in the catalog. In a Mail Bid catalog, photographs follow the text; in a Public Auction photographs appear on the pages of text which apply to them. In addition to this, arrangements have to be made for the creation of the catalog cover - setting up the photographic work, printing the various text, determining the thickness of the catalog for the cover, etc.- as well as writing the Order of Sale, creating and placing articles, Bibliography, Bid Sheets, etc. plus other technical work needed before materials are sent to the printers and binder.

Perhaps you can more readily appreciate the finished product of all these activities now that you have had a glimpse of the "behind the scenes" activities involved. It takes the great effort of numerous people and takes a great deal of time, but when the catalogs come back from the printer/binder, it's been worth it all.

EXPERT CATALOGING. Richard H. Ponterio has many years of experience as a cataloger and researcher of world coins and is a contributor to many books which have become the standard references in the numismatic world.

LIBRARY. Our World Coin Numismatic Library is one of the most complete in this country, which allows us to accurately catalog and describe virtually any world coin.

ATTRACTIVE CATALOGS. Your lots will receive the full conscientious research and write-up which they deserve. In addition, most single coin lots are photographed. All our sales are extensively advertised in addition to our worldwide mailing list of over 2,000 active buyers.

We have not just jumped on the world coins bandwagon. Our firm has always dealt exclusively in world coins. With more than 60 years combined professional experience, we know the world market.

Your coins will be in good company. We do not deal in, nor do we solicit, consignments of bulk lots or junk coinage. Your coins will be listed alongside many worthwhile rare numismatic items.

COMPETITIVE COMMISSION RATES. Our rates are among the lowest you will find anywhere.

INSURED PROTECTION FOR YOUR LOTS. From the time we receive your consignment until you are paid, your coins are fully insured.
